---

## DEVELOPER SUMMARY

Full Stack Web Developer with experience in JavaScript, React, Node.js, Ruby on Rails, and relational databases. Passionate about building scalable, user-centered applications and leveraging diverse background in business and marketing to deliver impactful digital solutions.

---

## PERSONAL PROJECTS

### **ConcertFYI** | [\[GitHub\]](#) | [\[Live Demo\]](#)

Multi-page React app with Express backend and PostgreSQL to track favorite artists' concerts, setlists, and venues. Integrated multiple external APIs for real-time data.

### **Calgary-Skies** | [\[GitHub\]](#) | [\[Live Demo\]](#)

Weather application focused on sunset times using OpenWeather, Google Maps, and Flickr APIs. Features bench locations and dynamic Calgary skyline photos.

### **Be-More** | [\[GitHub\]](#) | [\[Live Demo\]](#)

Quote and advice generator using ChatGPT API, styled as a portable computer with pure CSS. Built with React and Express.

### **Space Musketeers** | [\[GitHub\]](#) | [\[Live Demo\]](#)

Space Invaders-inspired game developed with HTML, CSS, and Vanilla JavaScript. Includes custom characters, story, and responsive design.

---
